OBJECTIVE

Seeking an internship opportunity in the field of Computer Engineering Technology to leverage my skills as a web developer and expand my knowledge in the latest trends and security approaches. Committed to contributing to innovative projects while cultivating a deep understanding of cutting-edge technologies, with a strong enthusiasm for continuous learning and professional growth.

EDUCATION

Technological University of the Philippines Visayas

-

Present

Bachelor of Science in Engineering Technology,
Major in Computer Engineering

EXPERIENCE

Freelancing - Present

I offer freelance services that include helping senior high school students with their capstone projects, assisting with Arduino projects, building websites for our school, and providing support to other students in coding and programming.

Development of the School Website - Present

I am one of the 13 student developers working on the TUPV website, where I focus on designing and creating user-friendly interfaces for the web pages, aiming to provide an intuitive and visually appealing experience for the site's visitors.
